

# BIDDEFORD Blankets

## Owner's Manual Manual del Propietario Guide du Propriétaire

### IMPORTANT SAFETY INSTRUCTIONS - DO NOT DESTROY!

Congratulations on purchasing your new Biddeford Blankets product! We have spent years developing our Smart-wire technology to provide you with a state of the art BLANKET/THERMO/MATRESS PAD. You should expect to receive many years of warmth and comfort from your new warming product. Please fill in and submit the five-year warranty registration at [www.biddefordblankets.com](http://www.biddefordblankets.com)

**Be sure to read the following instructions carefully before using this bedding!**  
**WARNING: Failure to follow these safety instructions may lead to personal injury!**

\* Do not use this bedding with an infant, a child, an incapacitated or immobile person, a paraplegic or a quadriplegic, or a person who is medicated.

\* Do not use this bedding if you are diabetic or insensitive to heat, or have poor blood circulation, or use it on anyone else who is a diabetic or insensitive to heat, or has poor blood circulation

\* Do not tuck in the wired area, fold, or bunch this bedding when in actual use; excessive heating may result.

\* Do not tuck the bedding/control or supply cord in a sofa or other furniture. All portions of the product and controller should be visible at all times. Like any other electrical cord, this can cause damage to the power cord that results in an electrical short that leads to a fire.

\* Do not route electrical cords between the mattress and box spring. Do not allow the cords to be pinched, trapped, or crossed. Like any other electrical cord, this can cause damage to the power cord that results in an electrical short that leads to a fire.

\* Do not use pins - They may damage the electric wiring.

\* Be sure that this bedding is used on an alternating-current supply circuit of the proper voltage.

\* Turn OFF or unplug when not in use.

\* Product not for use with inverter supplied power such as from a motor home or boat.

\* This product is for in-home use only, not for hotel, motel, or other institutional use.

\* If improper operation of this bedding is observed, discontinue its use immediately and consult the manufacturer or the dealer regarding its repair.

\* Do not use with pull-out or fold-up bed. Do not use with rocking chairs, recliners, chairs with casters or wheels, or other furniture subject to movement. This may cause the wires to be pinched and create an electrical fault.

\* Keep the controller away from drafty areas that may become damp or wet such as an open window. Do not cover the controller.

\* Wrapping of cord around the controller may damage the cord; Loop loosely when storing.

\* Do not dry-clean this bedding. Cleaning solvents may have deteriorating effects on the insulation of the heating element.

\* This appliance has a polarized plug, (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat the safety feature.

\* Never open up the controller case. Doing so could prove potentially hazardous and will VOID YOUR WARRANTY!

\* Use your Biddeford Blankets product ONLY with the supplied controller.

\* Keep all animals away from your heated bedding. They could damage the wiring, leading to a potentially harmful situation.
